When: Saturday April 22, 2017

Registration starts at 7:30am-8:30am

Classes begin at 9am-12pm

Lunch (provided by Milbank Fire) and Business Meeting 12pm-1pm

Classes Resume 1pm-4pm

Cost: \$20 per firefighter. First firefighter is free with department's paid annual dues.

## Class Listings:

3-hour Hybrid Vehicle Safety Class-this class will introduce responders to the hazards of a hybrid vehicle. Alternative fueled vehicles will also be discussed. There is scheduled to be a new vehicle available to conduct walk-arounds and see first-hand the special considerations of a hybrid vehicle. Please bring clothing suitable for springtime weather conditions.

3-hour Vehicle Stabilization-Roger Anderson from M & T Fire and Safety Equipment will have a full trailer of stabilization equipment. This class is an entry level class to explore the new tools available for rapid vehicle stabilization.

Please bring rescue gear or bunker gear suitable for use on a vehicle accident.

6-hour Vent Enter Search-Bill Bush from Fargo Fire will introduce firefighters to this rapid search technique. This class will include classroom time and also some time on the fireground to examine the proper and safe way to conduct this search in the event of a trapped or missing person. There will not be live fire but students may be entering a building and conducting hands-on exercises.

Please bring full bunker gear (helmet, nomex hood, coat, pants, boots and gloves)

6-hour Transitional Fire Attack-Captain Derek Peterson from St. Paul Fire Department will introduce firefighters to the transitional attack. Capt. Peterson is well respected as an instructor for fireground tactics and strategies. This, at time controversial, tactic has a place in urban and rural fire attack. Taking into account all of the changes in fire behavior, building construction and fire dynamics; this is a class that contains valuable knowledge for all levels of firefighter and officers. Firefighters will not be conducting live fire exercises but may be on the fireground to conduct some hands-on training.

Please bring full bunker gear (helmet, nomex hood, coat, pants, boots and gloves)
